| December The Atlantic Bank, Brooklyn, has declared a dividend of Three per cent, for the last eix months, The Commercial Advertiser says that a further assignment was

made on Monday last by the United States Bank to the same assignces named in that on the 4th last, of all residuary or resulting interest of the Bank in property made over by all former assignments, excepting that assignment for the benefit of creditors in Europe.

The North American Trust and Banking Company have published stalement in answer to the assertions made by the President of the Real Estate Bunk of Arkaneas, that the Trust Company had illegally pledged with T. Halford & Co. of London, 5:0 bonds of the State of Arkensas, upon which a loan had been made to the Real Estate Bank, pledging which the President of the Real Estate Bank declared that a tiber the State nor the Bank were liable for or would probably pay them. The Trust Cox pany endeavor to show, while ey admit the pledging, that it was not in violation of the contract, but, on the contrary, the Freeident of the Real Estate Bank was well aware of the fact at the time that they were pledged, and that stipulathe contract provided that if the Trust Company obtain extension on the loan in Loudon, the Real Estate Bank should also, if the desired it, have the benefit of the extension. It is also stated that the Real Estate Bank failed to comply with an important requi sition of the contract before any failure in payments was made by the Frust Company. We do not pretend to give any opinion on the merits of this case, but this cry of 'repudiation' is getting much too fre quent, and cannot but tend to injure materially the credit of all our State Stocks.

THE wealth of any country is founded upon the industry and econ omy of its citizens. There have been, and will ever be exceptions t assertion; but they are few, and those few rather to be nities and deprecated than held up as examples of worth. Economy makes us happy! For instance, the day-laborer, the me

chanic, or any other person whose sustenance depends upon his own individual exertions, feels happy in the hour of sickness or other afflic w that his family is not in want-his little ones have given the picture a different coloring.

To be extravagant would be to live contrary to the age; and, t reader our mite in the scale of economy, we have concluded to adopt a NEW, a NOVEL, and a CHEAP mode of furnishing those who cose to "put money in their purse," an opportunity of ebtaining wenging apparel at a very moderate rate.

Many of our citizens prefer purchasing their own cloth, from the fact of their having friends who are dealers in cloths, both wholesale and retail, and thus obtain an article of excellent quality, at a small advance on the importation price. This, they are aware, is their cheapest way of getting a suit of clothes; to which we say, amen! Now we propose to undertake the MAKING ANDTRIMMING OF GAR-MENTS, at such prices as shall ensure bose persons their clothing better made and cheaper than the cheapest cash tailoring establishment

Many think the tailors make enormous profits on their garmen by furnishing the goods. Some may but this mode will obviate th." excuse and we trust will satisfy the public.
